### **DETAILED ACTION**

Applicants preliminary amendment canceling claims 4-5, 7-8, 16-18, 20, and 28-30, amending claims 1-3, 6, 9-15, 15, 21-27 and 31-62 and adding new claim 63, Paper No. 9. 12/24/2002, is acknowledged. Claims 1-3, 6, 9-15, 15, 21-27 and 31-62 are present for examination.

### ***Election/Restriction***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-3, 6, 9-15, 19 and 21-23, drawn to an enzyme mixture comprising a first enzyme and a second enzyme, classified in class 435, subclass 194.
- II. Claims 24-27, 32-35 and 63 drawn to method for DNA synthesis, classified in class 435, subclass 15.
- III. Claims 40, 41, 47, 48, 54, 55, 57-62, drawn to a mutant DNA polymerase, classified in class 435, subclass 194.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product and processes of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the enzyme

mixture can be used in a materially different process such as one in which the enzyme mixture is used to mutate or synthesize polynucleotides.

The enzyme mixture of Group I and the mutant DNA polymerase of Group III each comprise a chemically unrelated structure capable of separate manufacture, use and effect. The proteins of Groups I and III each comprise an unrelated amino acid sequence.

The proteins of Group III is unrelated to the method of Group II as they are neither used nor made by the method of Group II.

Because these inventions are distinct for the reasons given above, have acquired a separate status in the art as shown by their different classification, and the literature and sequence searches required for each of the Groups are not required for another of the Groups, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(l).
